18. How to Help
Dear friends, partners, colleagues,

We would like to wish you all, a new year of Good Health, Success, with more Humanity, Peace and Social Justice.

Our responsibilities towards the weakened, vulnerable children, women and families are increasing. All together, we are committed to support them and to help them to have hope in the future and to fight for a better quality of life and a better tomorrow.

The year 2019 was a very difficult year in Lebanon at all levels, especially since the 17th October 2019, date of the uprising of the people against the Government, asking for their rights. The socio-economic and political crisis became worse than last year with around one million and half Syrian refugees in all Lebanese territories, and 500,000 Palestinian refugees. Increase of the poverty, the misery, no electricity, no water, unemployment, street children, violence, delinquency, drugs, prostitution, and exploitation of children and women....

We support without any discrimination, vulnerable children, at risk of all sorts of violence and children victims of violence, and young girls and women victims of sexual exploitation, and women in conflict with the law. We face very difficult challenges, but hope, good will and good action will always remain.

We are proud of Dar Al Amal multidisciplinary team who is committed for the causes of Human Rights, especially Children and Women Rights.

The team supports all the right holders to improve their capacities, to be empowered, and help them to integrate in the society.

Our core values are the respect and the acceptance of each other’s, and to live with dignity. We work for the prevention and protection and resilience, and for gender equality, social rehabilitation and reintegration and personal and community development.

The coordination continued and increased with the partners, in the public and private sectors, at the international and the national levels, and with all the supporters, Universities and Communities. Dar Al Amal will launch during 2020 a shelter in Choueifat, in which we will start to receive vulnerable young girls who are in need of urgent protection.

We would like to thank all our partners and supporters. Together, we will continue to help and protect the greatest number possible of vulnerable and survivors children, youth, women and families in need, and to ensure their rights for a better quality of life, and to advocate for their causes.

Sincerely Yours,
Habib Hatem
President of Dar Al Amal

Children’s Rights

Specialized Prevention and Protection Centers
Nabaa/Bourj Hammoud
Partners: Ministry of Social Affaires- Dar Al Amal

Each Child has the right to protection from violence, abuse, exploitation and neglect... Each Child has the right to education, free time and cultural activities

Historical overview: the center has been founded in 1987
Mission: Promoting children’s rights especially girls and achieving a better future with them
Objectives:
• To protect children and especially young girls from all risks and from all forms of violence
• To help the beneficiaries to build a self-confidence and improve their social connections
• To support the parents and family members
• To support the raise of children’s voices
• To increase awareness in the local community concerning children’s rights and the protection of the children from violence and exploitation

Beneficiaries:
Direct Beneficiaries: Every child aged between 7 and 18 years old suffering from social, psychological and economic conditions threatening their healthy social and psychological development. They are in need for support, follow up, guidance, prevention, and protection
Indirect Beneficiaries: The families and the local community
The number of beneficiaries during 2019 is 355: 265 children 90 mothers

All Beneficiaries suffer from difficult life conditions that affect them:
• Learning difficulties accumulated through the years which are caused by the lack of ability of the parents to help their children or by the
• Absence of a suitable atmosphere to help them study as a result of family problems:
• Domestic violence –Family dislocation
• Health problems
• Deterioration of the economic situation -Unemployment
• Addiction to drugs, alcohol: social, economic and psychological problems
• Narrow houses and their lack to health conditions and privacy necessary to secure decent living conditions

All of these obstacles affect the emotional, psychological and social growth of the children
Children are also vulnerable to all kinds of violence and exploitation in their environment: overpopulation, ethnic diversity, refugees’ crisis, very narrow streets, lack of infrastructure. The team stress in its work on the social and psychological intervention with the individual, the family and the community, in order to reach the children's best interests, and to safeguard their rights.
Current Problems of Local Community:
The local environment exposes children to many risks, and the situation has worsened with the demographic expansion especially after the Syrian displacements since 2011.
International studies show that children who were victims to war and immigration are more vulnerable to risks.
Among the risks they face:
- Violence in all its forms
- School dropout
- Worst forms of child labor
- Early Child marriage
- Sexual exploitation for commercial purposes.
In addition to many other risks that threat the physical and psychological development of the child.

Projects implemented during 2019

“Raising awareness about HIV/ AIDS testing and other STIs and referral for care and treatment under the MER 2 grant (IOM)”

An agreement was signed between the World Health Organization (WHO), the National AIDS Program (NAP) and the Dar Al Amal Society (DAA) at the end of May 2018 to implement the project over a period of 7 months. The project was implemented in all Lebanese territories (Beirut - Mount Lebanon - Tripoli - Baalbek - Saida - Tire ...) and targeted the Palestinian and Syrian refugees in general, and the key groups in particular.

School Support Project APVM
This project supports the children of the beneficiaries of the center by help them in paying the tuition and / or insuring school supplies

Prostitution and Legislation in Lebanon - Dar Al Amal perspective towards prostitution
Dar Al-Amal is working with the human rights activist, the lawyer Manar Zeiter, in order to adopt a legal position towards prostitution in Lebanon.
Women Rights

Partners: Ministry of Social Affaires – Diakonia – Dar Al Amal
Project “Social Rehabilitation and Reintegration program addressed to imprisoned and released women “
Three women prisons: Baabda, Tripoli, Zahle

Introduction:
The war in Syria affected all the Countries in the region and especially Lebanon (around one million Syrian refugees in Lebanon), adding to this, the difficult socio-economic situation in Lebanon that was revealed by the revolution started on 17 of November 2019, and is becoming more difficult day by day. Unemployment is rising, along with many other social problems such as drug dealing and using, robberies, and other crimes related to poverty and lack of security.

This crucial political and socioeconomic situation had negative effects on the project: In general, the number of all prisoners increased, although there is a rooted overcrowding problem in prisons. No actions whatsoever were taken by the Interior Ministry to tackle the life conditions of the imprisoned women. NGOs working in the prisons are ensuring the needs at all levels. Each year, reports are issued locally and internationally emphasizing the bad situation of the Lebanese prisons. Parliamentary Commission on Human Rights is still working to amend the prison system. The slowness of the judicial process contributed in increasing the number of the imprisoners. Some detained women had been waiting their trial for months, and even years

The multidisciplinary team of Dar Al Amal working in the prisons is supporting all the imprisoners at all levels, and motivating them to participate at the activities and to benefit from the services provided inside the prison. It aims to support them to be empowered during their incarceration, and reintegrated in the society after their release.

Objectives:
- To improve the life conditions in the prisons
- To help imprisoners to develop their potential, acquire skills, be empowered and to prepare their social rehabilitation in the prison
- To help them maintain relationships with their families
- To help them to reintegrate the society after their release
Social rehabilitation in the prisons:

A multidisciplinary team ensures these activities inside the prison in order to support the imprisoners to prepare their social rehabilitation. The same activities addressed to ex-prisoners are ensured in the centers of Dar Al Amal outside the prisons for their social reintegration.

- Individual support: social, physical and psychological, legal assistance
- Education sessions: Arabic, foreign language, computer sessions
- Vocational training sessions: waitresses, embroidery, sewing, handicrafts, false jewelry, mobile maintenance
- Awareness raising sessions: basic living skills, health education, human rights
- Production items inside the prisons
- Reintegration of released women: facilitating access to economic activities
- Raising the community’s awareness on conditions of women prisons
- Training sessions: for prison staff on how to deal with imprisoned women using the guide issued by Promoting Human Rights Policy and Practice in Lebanese Women’s project
- Recreational and sports activities

Dar Al Amal will launch during 2020 a Shelter in Choueifat Amrousieh, addressed to vulnerable young girls in need of protection. The building is in a very calm and healthy area in Choueifat-Amrousieh. The first floor will start to receive for emergency the children in order to protect them in a safe and secured place. Later other floors will be opened. The ground floor will be a restaurant for catering. A multidisciplinary team will support the beneficiaries at all levels in order to consolidate their identity, renew better relationships with their families, and prepare their social integration. They will stay in the shelter a specific period of time, depending of their needs. The activities will be: educational sessions, psychosocial support, health care, awareness sessions, handcrafts, recreational activities, sport...... The renovation is almost finished and all the equipment and material ensured.

Dar Al Amal thanks the public and private sectors for their support: The Ministry of Social Affairs, the Municipality of Choueifat, and the volunteer engineers, the Companies which are offering reduce prices materials. Special thanks to Ms. Eleni Sacre and her friends in Boston, and to Ms. Reem Richani, Mrs Nayla Naufal, Mrs Mirna Feghali, and to the engineer Mrs. Joyce Hatem, and all DAA friends for their generous donations.

Dar el-Aslal, une lueur d'espoir pour les femmes victimes de violence et entraînées dans la prostitution

D'origine le 17 janvier 2021, la Commission des enfants et des femmes victimes de violence, avec l'agence de femme, a lancé ce projet. Deux centres ont été ouverts, l'un à Tunis et l'autre à Sfax.

La commission a été créée en 1996, l'ONU Dar el-Aslal, une lueur d'espoir pour les victimes de violence et des femmes entraînées dans la prostitution.

Cette initiative vise à soutenir les victimes de violence et à leur offrir une chance de réinsertion dans la société. Les centres proposent des services de soutien psychosocial, des cours de formation professionnelle et des programmes de réinsertion pour aider les victimes à reconstruire leur vie.

Le projet vise à offrir une lueur d'espoir à ceux qui ont été victimes de violence et à leur permettre de retrouver leur place dans la société.
